Join our partner, Mountain-Pacific Quality Health for this upcoming webinar:

HIPAA Privacy and Security in Nursing Homes

Thursday, August 18, 2016
2-3 p.m. MT - 1-2 p.m. PT

Description

Nursing Home in the news! June 30, 2016: Business Associate's Failure to Safeguard Nursing Home Residents' PHI Leads to \$650,000 HIPAA Settlement.

Complying with HIPAA Rules' requirements to protect the privacy and security of health information can pose unique challenges for Nursing Homes. Join us for a FREE Webinar designed to help you learn and comply with HIPAA.

Learning objectives

- An overview of the HIPAA privacy and security rule
- Introduction to business associates and agreements
- Is your facility subject to HIPAA? We will address this complicated question
- Importance and overview of a security risk analysis

Speaker

Susan Clarke is a health care information security and privacy practitioner at Health Technology Services, a department of Mountain-Pacific Quality Health. She has professional experience totaling 17 years in electronic health record (EHR) software development and information technology management, including experience at a Mayo Clinic affiliated health care system. Susan is an expert in all stages of the EHR software product life-cycle and has established coding conventions, best practices and support tools for medical application software products using ANSI standard M (MUMPS) and HL7 Healthcare application development.
